Selected conference presentations

2026	Allied Social Science Associations Annual Meeting, Philadelphia. *Artificial Intelligence and the Brain: Is Innovation Getting Easier?* and *Artificial Intelligence, Knowledge Spillovers, and Growth*.
2025	World Congress of the Econometric Society, Seoul, and Academy of Management Annual Meeting, Copenhagen. *Artificial Intelligence Generated Content, Intellectual Property Rights, and Digital Tax*. Conference abstract.
2025	Seventh Annual Conference of Government and Economics, Beijing, and Seventh International Conference on European Economics and Politics, Milan. Artificial Intelligence, Knowledge Spillovers, and Growth.
2024	RCEA International Conference in Economics, Econometrics, and Finance, London, and 47th Eurasia Business and Economics Society Conference, Berlin. *Endogenous Information Carrier Technology*.
2021–2022	Asian Meeting of the Econometric Society, China Meeting of the Econometric Society, and Annual Conference in Digital Economics. Platform Dynamics and Economic Development.
2019	China Meeting of the Econometric Society, Guangzhou. Solow to Becker-Lucas.

Research funding

Principal investigator and fellowship recipient

2025–2027	National Natural Science Foundation of China, Young Scientists Fund, grant 72403265. Artificial Intelligence and Human Cognition: A Theoretical Study of Innovation and Growth.
2023–2026	China Postdoctoral Science Foundation, 75th General Program, grant 2024M753813. Artificial Intelligence and Original Innovation: An Endogenous Growth Model.
2023–2025	National Postdoctoral Researcher Program, 2024 Category C award, GZC20242117. Received Tier 3 funding in the 2025 postdoctoral research performance assessment.

Collaborative projects

2026–2028	National Natural Science Foundation of China, special project under the Guideline-Guided Original Exploration Program. The Architecture, Evolution, and Development of Markets for Data as a Factor of Production: Theory and an Evaluation Framework.
2025–2027	National Social Science Fund of China, Major Project. Changes in Global Economic and Trade Rules: Implications and Policy Responses for China's High-Level Opening Up.
2025–2027	Central University of Finance and Economics, Eighth Young Research Innovation Team Program. International Trade and Global Environmental and Climate Governance: A Quantitative Trade Perspective.
2024–2026	National Natural Science Foundation of China, General Program. Economic Growth and Population Dynamics in the Digital Age.
2020–2023	National Natural Science Foundation of China, General Program. Digital Platform Dynamics, Social Welfare, and Financial Stability: Theory and Empirical Evidence.

2015–2016 National Undergraduate Innovation and Entrepreneurship Training Program. Time-of-Day Pricing for High-Speed Rail: A Multiobjective Optimization Model for the Beijing–Shanghai and Shanghai–Nanjing Routes. Final evaluation: Excellent.

Professional service

Referee for *China Economic Quarterly*, *Canadian Journal of Economics*, *Journal of Macroeconomics*, *Economic Modelling*, *Humanities and Social Sciences Communications*, *Journal of Banking & Finance*, and *Journal of Management World*.

Teaching

Graduate Central University of Finance and Economics. Economic Theory and Practice (domestic and international graduate programs) and Global Supply Chain Operations and Management (domestic graduate program).

Undergraduate Central University of Finance and Economics. Investments and Portfolio Management, China–Australia undergraduate program, spring terms 2024–2026.

Fall 2023 Central University of Finance and Economics. International Financial Markets and Business Economics.

2019–2021 Teaching assistant, Tsinghua University. Principles of Economics II, Law and Economics, Macroeconomic Analysis of China, Intermediate Macro: Economic Science Policy, and Model Innovation for Economic Science & Policy.

Selected honors

2026 第五届国际商务专业学位研究生案例竞赛教学型案例三等奖。获奖案例：《科技赋能，“玩”转全球：优迪智能的出海之路》。作者：杨补园、张晓涛、蒙双、王铁军、綦欣。
Third Prize, Teaching Case Category, Fifth National MIB Graduate Case Competition. *Technology at Play: UDIRC's Path to Global Markets*. Buyuan Yang, Xiaotao Zhang, Shuang Meng, Tiejun Wang, and Xin Qi.

2024 Best Paper Award, 47th Eurasia Business and Economics Society Conference, Berlin, for *Endogenous Information Carrier Technology*, with Danxia Xie.

2024 中国信息经济学会学术年会（2024）会议优秀论文奖。《人工智能、知识产权与最优政策设计》。作者：寇宏伟、戎珂、谢丹夏、杨补园。
Outstanding Paper Award, 2024 Annual Conference of the China Information Economics Society, for the paper presented as Artificial Intelligence, Intellectual Property Rights, and Optimal Policy Design. The award announcement lists the English title as *AIGC, Intellectual Property Rights and Digital Tax*. Hongwei Kou, Ke Rong, Danxia Xie, and Buyuan Yang.

2023 Yatu Scholarship, School of Social Sciences, Tsinghua University, March 2023.

2022 Comprehensive Graduate Scholarship, Second Class, Tsinghua University.

2021 第十九届（2021 年度）中国法经济学论坛优秀论文奖。《双边市场排他性协议研究——基于非对称平台竞争的经济学分析》。
Excellent Paper Award, 19th China Law and Economics Forum, for Exclusive Agreements in Two-Sided Markets: An Economic Analysis of Asymmetric Platform Competition.

2019 Outstanding Graduate, Beijing Municipal Commission of Education.
